### SM 1 Waste code and waste type

Waste Code	Waste Type
E-0201	Waste wire and cable (not processed by physical treatment)
E-0202	Jelly compound waste wire and cable containing grease
E-0207	Scrapped transformers and capacitors containing grease in which the weight of PCB is lower than 0.0005%
E-0213	Electro-plated metal's scrapped plastic (including CD discs)
E-0214	Waste computers (the waste which is not announced to be subject to recycling)
E-0215	Waste appliances (the waste which is not announced to be subject to recycling)
E-0216	Waste telephone exchange
E-0217	Scrapped electronic parts and components, leftover scrap and defective goods
E-0218	Scrapped opto-electronic parts and components, leftover scrap and defective goods
E-0220	Scrapped communications apparatus (not including mechanical apparatus)
E-0221	Scrapped metal containing PCBs and their scrapped powder
E-0222	Scrapped PCBs containing parts and components
E-0229	Waste copper clad laminate in which the weight of copper is higher than 60%
E-0301	Scrapped light-emitting diode chips and their scrapped powder
