

## **Foreword for Special Section on Papers Selected from ECTI-CON2005**

ECTI-CON is the active international conference held in Thailand for researchers in the fields of electrical engineering, electronics, computer, telecommunication, and information technology around the world. The ECTI-CON 2005 was held at Asia Pattaya Hotel, Pattaya, Chonburi, Thailand on May 12-13, 2005.

There are 217 papers selected out from more than 350 papers to present and discuss at the ECTI-CON 2005.

These accepted papers are from 16 countries including Australia, Bangladesh, Canada, Finland, Germany, Hong Kong, India, Iran, Japan, Korea, Malaysia, Oman, Tanzania, Thailand, United Kingdom, and USA.

Since the ECTI-Trans-editor team has found that many papers presented at the ECTI-CON were evaluated in high level that could be revised to transactions paper level. The editors of ECTI-EEC and ECTI-CIT Transactions agreed to traditionally organize the special section on papers selected from ECTI-CON. The special section is separated into EEC and CIT groups that are published in November 2005 on ECTI-CIT Trans and February 2006 on ECTI-CIT Trans respectively.

The authors of best paper candidates were recommended to submit their papers to the ECTI Transactions as well as other regular papers. There are 8 from 17 best-paper-candidate papers, and 11 from other ordinary papers were submitted to the special section. As reviewing results, five papers are recommended to publish on ECTI-CIT Transactions.

Finally, it is my honor to be able to obtain this opportunity to work in charge of special section selected from ECTI-CON 2005. On behalf of ECTI-CIT Transactions, I would like to express my sincere thanks to the authors for submitting and revising their valuable papers, and my appreciation to all reviewers for hard working in limited time to improve and guarantee the paper quality of ECTI-CIT Transactions.

Kosin Chamnongthai,  
Guest Editor of Special Section on papers selected from ECTI-CON 2005.
