

Editorial Policy

We invite you to submit an article to the journal of materials science and applied energy which is double-blind peer review. The journal publishes original research articles as well as review articles in all areas of materials science and applied energy. Please do not hesitate to contact us if you have any questions about the journal.

Journal Scopes

Journal of materials science and applied energy is an international journal and peer-reviewed medium for the publication of theoretical and experimental materials science and applied energy. The journal includes thermoelectric, piezoelectric, thin films, solar cells, biomass, battery, nanomaterials, microelectronic devices, renewable energy and alternative energy, are welcome.
