

Aim and Scope: SNRU Journal of Science and Technology is an international journal and peer-reviewed medium for publishing scientific papers of international interest focusing on biology, chemistry, physics, environment science, computer, information technology and industrial technology, are welcome. It is indexed/abstracted in:

- Thai-Journal Citation Index (TCI)
- Frequency: 3 issues/Year
 - January – April
 - May – August
 - September – December

Print ISSN: 1906-5965

Editorial Office: Research and Development Institute, Sakon Nakhon Rajabhat University, Amphoe Mueang Sakon Nakhon, Sakon Nakhon, 47000 Thailand

Tel. & Fax: 0-4274-4010

E-mail: jst@snru.ac.th

Website: <http://snrujst.snru.ac.th>

Submission system: http://www.tci-thaijo.org/index.php/snru_journal

Place of publication: Sakon Nakhon Rajabhat University

Printed: Sakon Nakhon Press, Amphoe Mueang Sakon Nakhon, Sakon Nakhon, 47000, Thailand

Contents

	Page
The Structural, morphological and optical properties of Ca doped TiO ₂ thin films prepared by sol-gel method <i>T. Rattana, S. Suwanboon, C. Kedakew</i>	1 – 5
A Comparison of Protein Extraction Methods from Protease Treated Rubber Particles Suitable for 2-Dimensional Electrophoresis Study of Allergic Proteins <i>E. Threenet, P. Papun, P. Wongputtisin, A. Kleawkla</i>	6 – 12
Effect of crosslinking agent and starch contents on hydrogel from deproteinized natural rubber latex and starch <i>A. Kleawkla, S. Srivipak, E. Threenet, P. Wongputtisin</i>	13 – 18
Biodiesel Production from Tung Seed Oil using Strong Base Supported on Activated Carbon from Longan as Catalyst by Microwave Technique <i>A. Kleawkla, E. Threenet</i>	19 – 24
Biological characteristics and effects of salinity on reproductive activities of marine worm (<i>Tylorrhynchus heterochaetus</i> , Quatefages, 1865) in summer season in Hai Phong – Viet Nam <i>N.N. Tuan, L.T.H. Hang, S. Yaemkong, P. Jaipong, P. Kotham</i>	25 – 31
Characterization of calcium oxide derived from cockle shells for carbon dioxide capture <i>S. Wongsanenmai</i>	32 – 36
Effect of Epoxidized Natural Rubber on Properties of Poly (butylene Succinate)/Rice Flour Composites <i>P. Sapsrithong, T. Junaiad, A. Kornkartok, A. Pattanakaew, A. Rattanapan</i>	37 – 44
Study of the mechanical, dynamic mechanical and dielectric properties of natural rubber/barium titanate composites <i>A. Rattanapan, K. Bangyeekhan, W. Pakdee, J. Setkit, P. Sapsrithong</i>	45 – 51
Physical and Mechanical Properties of Fiber Boards from Oil Palm Empty Fruit Bunch Fibers Mixed with <i>Water Hyacinth</i> Fibers <i>T. Thongkanluang, K. Buasri, P. Surin, N. Chirakanphaisarn, S. Jakthinl, P. Kahawong</i>	52 – 57
Effects of thickness of the flow channel, melt temperature and mold temperature on the flow behavior of polypropylene/silicon carbide composites using injection molding simulation <i>K. Kuntiwong, A. Rattanapan, S. Chatakorn</i>	58 – 65
Molecules interaction between copper phthalocyanine and volatile organic compounds with applying for gas sensor by Monte Carlo simulation <i>S. Pengmanayol, J. Girdpun</i>	66 – 74
ZnO nanoparticles affect differently the morphological and physiological responses of Riceberry plants (<i>Oryza sativa</i> L.) <i>P. Ruangthep, S. Samart, S. Chutipaijit</i>	75 – 81
Effect of tungsten sputtering current on structural and morphological properties of WC thin films <i>A. Choeysupaket, S. Chaiyakun, T. Rattana</i>	82 – 86
Improvement on Automated Thai Assignment Scoring by Using a Thesaurus <i>T. Thongyoo, S. Saelee, S. Krootjohn</i>	87 – 95
Guidelines for Manuscript Preparation
