Experimental performance and mathematical modeling of a large-scale greenhouse solar dryer for drying orchids at Kanchanaburi Province Thailand <i>J. Piwsaoad</i>	35 – 44
The effect of low current density on the hydrophilicity and surface properties of the anodized films performed by two-step anodization <i>P. Whangdee, S. Nilmoung, N. Pangpaiboon, D.P. Kashima</i>	45 – 54
The high capacitance for electrode structure of interdigital capacitor thin film models <i>R.E. Rachmanita, S. Boonkirdram, S. Thawankaew, W. Chao-Moo, A. Vora-Ud, M.S. Muntini, T. Seetawan</i>	55 – 63
Forecasting water levels using data mining techniques: a case study at Nong Han Lake, Sakon Nakhon, Thailand <i>S. Boonta, R. Chongklaiklang</i>	64 – 70
Characterization of selected <i>Caesalpinia</i> species in Thailand based on microscopic leaf anatomy including leaf constant numbers <i>S. Intakhiao, C. Palanuvej, N. Ruangrunsi</i>	71 – 78
